Wing Beat News is informational only; it is not designed as a substitute for the regulation books

NOTICE TO HUNTERS:

Due to ongoing staffing shortages, some of the consolidations of check station operations that occurred last year will continue this season.

We are trying hard to maintain hunting opportunities, and we appreciate hunters' efforts to be informed, prepared, and patient.

2-day passes will not be sold at check stations, but will still be available from other normal sources. Annual passes will still be available at the check stations.

SAN JOAQUIN VALLEY AND SOUTHERN SIERRA REGION *WING BEAT NEWS* IS ALSO AVAILABLE BY EMAIL

Receiving *Wing Beat News* by email is very similar to receiving a printed copy through the U.S. Mail, but with many additional advantages. The email version will be sent to you the day it is ready for distribution, without having to wait for bulk mailing delays. You can choose to print the email version on your home printer or save paper and read it from your computer monitor.

Subscribe to the email newsletter by sending your request to losbanosinfo@dfg.ca.gov. (There is no period after the "gov" in the email address) Please type "Subscribe to email version of *Wing Beat News*" in the subject line and body of the message. Please also include your first and last name in the body of the message.

The newsletter will be sent as a Portable Document File (.pdf). Therefore, you must have Adobe Reader installed on your computer to read the file. Adobe Reader is available free online at <http://www.adobe.com/products/acrobat/readmain.html>. The online version of the newsletter is available for viewing at <http://www.dfg.ca.gov/reg4/wingbeat/>

REMINDER OF CHANGES TO CHECK STATION OPERATIONS AT TYPE A AREAS IN THE GRASSLANDS

ALL CHECKING STATIONS: On the morning of each hunt after all reservation holders, lottery participants, and those people on the first-come, first-served list have been processed and issued permits, any remaining persons on the lottery or first-come lists that are not present will be removed from the list. If the area reaches its maximum capacity before all persons on the lottery or first come lists are issued permits, remaining persons on those lists will be called to reaffirm their interest in remaining on the waiting list for refilling the area. For example, if the hunt area reaches maximum capacity when lottery draw number 7 checks through, lottery draw number 8 becomes first on the list for refilling the area. If the hunter who drew number 8 is not present, that person will be removed from the waiting list, along with any others not present. If lottery draw number 9 is present, they will be moved to first on the list. A revised waiting list of those still present will be made in which

hunters will maintain their order of entry relative to others who are still present and waiting.

Persons on the revised waiting list may indicate a hunting assignment preference. Each person may indicate a maximum of 2 choices. If vacancies first occur for assignments other than the choices indicated, permits will be issued to the next person in line who does not have a specific preference. If a hunter rejects an area of choice, that person will be moved to the end of the list and a permit will be issued to the next person.

At all checking stations, persons signing up for the first-come, first-served list, to be called after the lottery draw, must do so in person. If that person is with another person, they must both sign up as a party or as individuals. Persons signing as a party will receive the same hunt assignment in the same manner as those entering with a reservation or a lottery number. They will not be allowed to take a separate assignment. If they sign in as individuals and only one hunt assignment is available, only one person will receive the assignment. This is intended to provide better and more equitable hunting opportunities. For example, suppose there is a party of two hunting in zone six, field 32 at the Los Banos WLA. There are three blinds in this field: 4, 5, and 12. If this party split and each hunter took a blind, they would control hunting on $\frac{2}{3}$ of the field, depriving another party or individual the opportunity to hunt from one of these blinds.

No permits will be issued and no hunt assignments will be changed after 3:00 p.m. each hunt day. This is for the benefit of those hunting and for the checking station staff. The personnel in the checking stations have several reports that must be completed before the end of the day. This shut off time allows them to complete this work prior to the evening rush as hunters leave the area. For the hunters' benefit, waterfowl are starting to work by 3:00 p.m. and persons moving around setting up decoys, etc. after that time tend to flare birds away from hunting areas, therefore impacting evening hunting. This change has helped reduce hunter conflicts during the evening hunting period.

ADA Accessible Blinds at Los Banos and North Grasslands Wildlife Areas and the Kesterson Unit:

The Americans with Disabilities Act (ADA) accessible blinds will be held for eligible persons until 2:00 p.m. If there is no one in line requiring these blinds at that time they will be open to general use. Holding the ADA accessible blinds until 2:00 p.m. is consistent with the Sacramento Valley federal operations and gives hunters requiring ADA accessibility that have trouble arriving early in the morning an opportunity to hunt. This change will unify all of the Grasslands vicinity public hunting operations.

North Grasslands WLA – Gadwall Unit: The Gadwall Unit will not be open for dove hunting. The area has very little dove hunting opportunity and is a major holding area for early arriving migrant waterfowl, such as pintail and green-winged teal, for the south grasslands vicinity. Closing the Gadwall Unit to dove hunting will reduce disturbance to waterfowl and other wetland dependent species and should improve early season duck hunting.

North Grasslands WLA – China Island Unit: With some exceptions (see * below) during the pheasant season, permits to hunt the China Island Unit during the waterfowl/pheasant season will be issued at the Kesterson Unit checking station. Reservations will be taken from 2 ½ hours before waterfowl shooting time, until 1½ hours before shooting time. Reservations will become void at that time.

The lottery for the China Island Unit non-reservation line up will be held at the Kesterson checking station on the night prior to the hunt. Registration will be between 6:00 and 9:00 p.m.

The Highway 140 parking lots on the China Island Unit will not be open during the waterfowl season; only interior lots will be available. Also, permits will not be issued to allow persons to park on the Newman Wasteway to hunt the wildlife area. It is not Department land or a designated parking lot. You will be required to park in an interior lot. The primary reason for closing the lots on Highway 140 is safety: The locations of those remote lots require left hand turns across Highway 140 in dark and often foggy conditions. The bridge across Mud Slough will allow hunters to access the "Flood Plain" portion of the China Island Unit from the interior parking areas. Hunters wishing to hunt China Island with a boat may access the San Joaquin River at Great Valley Grasslands State Park on the east side of Highway 140.

*On the first three days of pheasant season, and on regular waterfowl hunt days during the pheasant season, permits to hunt pheasants on China Island will be issued at the Kesterson checking station. On all other days that the area is open to pheasant only hunting, permits will be issued at the Los Banos checking station.

Volta Wildlife Area: The lottery draw to establish the order of entry after the reservation holders will be held at the **Los Banos checking station**. Registration will be between 6:00 and 9:00 p.m. on the evening before the hunt. Those that arrive after the 9:00 p.m. registration time will be issued permits after the lottery draw recipients, by the order in which they are parked in line at the Volta checking station.

San Luis N.W.R. – Kesterson Unit: Blinds 28, 29, 30, and 31 will be refilled as soon as all blinds have been vacated and there are enough people waiting to fill at least three blinds, or at 2:00 p.m., whichever occurs first. Filling these blinds as soon as they are all vacated provides more hunting opportunity. The checking station will start issuing permits to reservation holders 2 ½ hours before waterfowl shooting time.

San Luis N.W.R. – Freitas Units, North and South: Permits will be issued to reservation holders starting at 6:00 p.m. the evening before the hunt, until 3:00 a.m. on the morning of the hunt. Reservations will be void after 3:00 a.m., which coincides with the time that non-reservation hunters can be processed to access this unit. Therefore, non-reservation hunters can be processed immediately at 3:00 a.m. without conflict to reservation holders.

LOTTERY SYSTEM WILL REMAIN ON ALL MERCED COUNTY WILDLIFE AREAS AND REFUGES

As with last season, the Northern San Joaquin Valley waterfowl hunting areas will be using a lottery system to establish order of entry for all non-reservation waterfowl and pheasant hunters. Although intended to mimic the reservation system, a lottery number does not guarantee entry; the lottery number provides an order of entry if and when space is available. At check stations with multiple lotteries, hunters may only sign up for one lottery for a single hunt area.

The following table indicates the hunting areas that will use the lottery system and the corresponding check station that will hold the lottery drawing.

Hunt Area	Check Station Where Lottery Will Be Held
Los Banos Wildlife Area	Los Banos Wildlife Area
Volta Wildlife Area	Los Banos Wildlife Area
China Island Unit of North	Kesterson Unit of SLNWR
Grasslands Wildlife Area (NGWA)	
Salt Slough Unit of NGWA	Salt Slough Unit of NGWA
Gadwall Unit of NGWA	Salt Slough Unit of NGWA
Merced National Wildlife Refuge	Los Banos Wildlife Area
San Luis Unit of the San Luis	Salt Slough Unit of NGWA
National Wildlife Refuge (SLNWR)	
Kesterson Unit of the SLNWR	Kesterson Unit of SLNWR
North Freitas Unit of the SLNWR	Kesterson Unit of SLNWR
South Freitas Unit of the SLNWR	Salt Slough Unit of NGWA
West Bear Creek Unit of the SLNWR	Salt Slough Unit of NGWA

The checking station staff will begin issuing permits to persons with reservations for each area at the following times:

Los Banos WLA, Volta WLA and the Merced NWR: Two hours before shoot time.

Salt Slough, China Island, and Gadwall Units, San Luis NWR, including Blue Goose, Kesterson, and West Bear Creek Units: Two and one-half hours before shoot time.

Freitas Unit of the SLNWR, North and South: 6:00 p.m. the prior day until 3:00 a.m. If vacancies occur, lottery numbers will be called between 3:00 a.m. and shooting time. Refills will be issued permits after 11:00 a.m.

The following table summarizes the timeline of lottery events.

Time	Activity	Explanation
6:00 p.m. – 9:00 p.m.	Lottery Registration	Hunters must register for the lottery in person. Hunters going in as a guest of the hunter that is registered need not enter in the lottery.
9:00 p.m.	Lottery Drawing	Hunters may register in the same lottery only once per day, but may apply for several different lotteries at separate check stations for the same day. Computerized random lottery draw to determine the order of entry for those registered in the lottery.
Shortly after 9:00 p.m.	Posting of Lottery Results	Results from lottery draw indicating the order of entry will be posted outside the checking station.
9:00 p.m. to the beginning of shoot time	Post-lottery Arrivals	Sign up on a first-come, first-served basis for openings not filled by reservation holders or lottery participants. 1 st – Admittance of reservation holders
2 ½ - 2 hours before shoot time (time varies among hunt areas)	Filling the Hunt Area	2 nd – Admittance of lottery draw participants 3 rd – Admittance of first-come, first served list to fill remaining vacancies (Volta WLA hunters will be processed in the order they are parked.)

INFORMATION ABOUT WATERFOWL RESERVATIONS

As with previous years, hunters can apply for reservations using the daily, 5-day, or season-long application forms. Near the first week of September, a renewal packet containing a season-long application and information about the drawing system will be sent to all persons who applied for reservations last year.

All waterfowl reservation applications must be received at the License and Revenue Branch (LRB) **at least 17 days before** the requested shoot date in order to be included in the drawings. **Late applications are disqualified without exception.**

What is the single most important thing that you can do to improve your odds of being drawn for a reservation? Make certain that your application is received at the LRB before the application deadline!

Don't let not drawing a reservation keep you from hunting. Many hunters that successfully draw a reservation don't show up, leaving many vacancies. In fact, usually only fifty percent or less of reservation holders show up.

When applying for reservations, remember that the Merced NWR is open on Wednesday and Saturday only; do not waste a reservation application by marking Sunday for Merced NWR. Also, the West Bear Creek Unit and the goose blinds at Merced NWR will not open until the third Saturday in November.

WATERFOWL AND PHEASANT SEASON FEE SCHEDULE 2005-2006

The following table indicates current fees for the permits and hunting stamps that will be available through check stations this year. Two-day passes will not be sold at check stations, but will be available from regular license agents.

One-day Reservation*	\$1.25
Five-day Reservation*	\$6.25
Type A One-day Entry Permit	\$14.00
Type A Season Pass	\$106.75
State Duck Stamp	\$13.50
State Upland Stamp	\$6.50

* Only available at the Salt Slough / San Luis Check Stations.

WATERFOWL & PHEASANT HUNTING OPPORTUNITIES ON PUBLIC LANDS

STATE WILDLIFE AREAS

Persons interested in obtaining waterfowl hunt results, and hunter numbers may call (209) 826-6719, 24 hours a day. The recorded message is updated by noon every Monday during the waterfowl season. It covers the Los Banos, Volta, Salt Slough, China Island, and Mendota Wildlife Areas, and the San Luis, West Bear Creek, Kesterson, and Merced National Wildlife Refuge Units.

Pheasant Hunting

The Los Banos, North Grasslands, and Mendota Wildlife Areas will be open to pheasant hunting every Saturday, Sunday, and Wednesday starting November 12, 2005. In addition, these areas will be open to dove and/or pheasant hunting on November 14, 15, 17, 18, and 25, 2005. On these five non-waterfowl hunting days, permits for the Los Banos and North Grasslands Wildlife Areas must be obtained at the Los Banos Wildlife Area check station, which will open at 7:00 a.m. Permits for the Mendota WLA must be obtained at the Mendota WLA check station. The China Island Unit/Kesterson check station is located at Kesterson and will be open Monday, November 14th at 7:00 a.m. to serve China Island and Kesterson pheasant hunters. Permits for China Island on November 15, 17, 18, and 25 must be obtained from Los Banos Wildlife Area check station.

In addition, Volta WA and San Luis unit of San Luis NWR will allow hunting on days they are open to waterfowl hunting.

We anticipate releasing 150-250 male pheasants at the Los Banos Wildlife Area for the Friday after Thanksgiving pheasant hunt.

LOS BANOS WILDLIFE AREA

The 6,136-acre Los Banos Wildlife Area was established in 1929. This acreage includes the Mud Slough Unit, which is reserved for junior hunters and their adult escort. Daily hunting capacity is approximately 150.

Restrooms and drinking water are available at the checking station. Chemical toilets are available at other parking lots. No public telephones are available.

Zone 6 is an area with 18 – 22 hunting blinds. All blinds at the Los Banos Wildlife Area have a maximum capacity of two persons. For example, each blind may be used by a combination of two adult hunters, one adult hunter and one junior hunter, or one hunter and one non-shooter. These blinds are available on a first-come basis. The portion of the wildlife area not included in Zone 6 or the closed zones is open to free-roam hunting. Boats are permitted, but not needed.

Junior Hunting Opportunities at the Los Banos WLA

In Zone 6 at the Los Banos Wildlife Area, three tank blinds will be reserved every shoot day for junior hunters and their escorts.

The Mud Slough Unit of the Los Banos Wildlife Area has developed into a nice area for young hunters and their adult chaperones. Six tank blinds and two stand-up blinds are available.

Only one junior and one adult may hunt from a blind.

Los Banos WLA check station will hold lottery drawings for Los Banos WLA, Volta WLA, and Merced NWR. Hunters may only sign up for a single hunt area for the draw. For example, a hunter may sign up for the draw for Los Banos WLA, but not Volta WLA or Merced NWR.

VOLTA WILDLIFE AREA

The 3,000-acre Volta WLA is owned by the U.S. Bureau of Reclamation and managed by California Department of Fish and Game for the benefit of wildlife and as a public use facility. Since 1952, this area has served many hunters and has a well established waterfowl hunting program. Late season hunting has improved in the last several years. Daily hunting capacity is approximately 110 hunters.

Chemical toilets are available at the check station and interior parking lots. No telephone, food, or drinking water is available. No hunting blinds are available. Boats are permitted but generally not needed.

When in season, hunting snipe and pheasant is permitted on the days the area is open for waterfowl hunting. Dove hunting is not permitted. Rabbit hunting is not permitted during waterfowl or pheasant season.

The lottery registration for the Volta Wildlife Area will be held at the Los Banos Wildlife Area.

NORTH GRASSLANDS WILDLIFE AREA

The 7,069-acre North Grasslands Wildlife area is better known by the names of the three units that comprise it: the China Island Unit (3,325 acres), Gadwall Unit (1,503 acres), and the Salt Slough Unit (2,241 acres). Since the purchase of the first parcels in 1990, with the most recent parcel purchased in 1999, a great deal of wetland and upland development and restoration has occurred.

China Island Unit. In the same manner as last year, waterfowl and pheasant hunters will obtain hunt permits at the Kesterson check station located on Highway 140. The lottery for China Island will be held at the Kesterson check station on the night prior to the hunt day. Lottery registration will be between 6:00 p.m. and 9:00 p.m. Permits will be issued 2.5 hours before shoot time, beginning with reservation holders.

The public will find good all weather access to the parking lots. The parking lots off Highway 140 will not be open during the waterfowl season. Access by foot or bicycle to the flood plain will be from the west side of the unit either via the bridge over Mud Slough, or under the Highway 140 bridge by Fremont Ford Access (when low

water levels in the San Joaquin River allow). This will eliminate the danger of having to make the turns off Highway 140 in the dark and/or fog.

No camping is allowed on the area. Portable chemical toilets will be available starting September 1. No telephone, food or drinking water is available.

Salt Slough Unit. The check station will be in operation from the beginning of waterfowl season. Camping is not permitted on the area.

Portable chemical toilets are available in the main parking lot and Lot B. No drinking water, food or public phones are available.

Zone 13 (Fields 13 and 17) is an assigned stake blind area. Blind capacity is 4 persons and hunters are required to stay within 100 yards of their assigned blind site. Blinds are available on a first-come basis. There are 5 blinds in the hunt area. Blind sites are marked with a steel post and sign, and located on islands. To change blind assignment or switch to free-roam, hunters must return to the check station in order to do so.

Field 50 is an assigned blind field. Two blinds are located in the hunt area. Blind 50-2 is a designated ADA blind (see above). Blind 50-1 is assigned on a first-come basis. Hunter capacity for both blinds is 3 persons.

Gadwall Unit. Flooding of a few ponds, including the closed zone should begin by mid-August. Reservations for Gadwall will be available through the statewide system. However, as in the past, waterfowl and pheasant hunting permits for the Gadwall Unit will be issued from the Salt Slough Unit check station. Issuance of permits for reservation holders will begin 2 and one-half hours before shoot time.

Portable chemical toilets are available at the parking lots. No public telephone, food or drinking water is available.

Dove hunting is not permitted. Rabbit hunting is not permitted during waterfowl season.

There are blinds on the Gadwall Unit but are neither assigned nor maintained. The locations of these blinds are marked on the Gadwall Unit map. **Beware of rattlesnakes when hunting this area!** Camping is not permitted on the area.

MENDOTA WILDLIFE AREA

The 12,000-acre Mendota Wildlife Area is located in western Fresno County. With a capacity of 600, it accommodates the largest number of waterfowl and pheasant hunters in central California. This area provides many opportunities for both waterfowl and upland game hunting.

Chemical toilets are available at the check station and most parking lots. No telephone, food, or drinking water

is available. Boats without motors can be used in the ponds; boats with motors are allowed in Fresno Slough. The checking station will start issuing permits to reservation holders two hours before shooting time, except on opening day of waterfowl season when permits will be issued three hours before shooting time. Reservations must be presented to the checking station by one hour before shooting time.

Dove and snipe hunting is permitted during the legal seasons on the days the area is open for waterfowl and/or pheasant hunting.

NATIONAL WILDLIFE REFUGES

Several national wildlife refuges are open to waterfowl hunting in the San Joaquin Valley & Southern Sierra Region. While these areas are owned and managed by the U.S. Fish and Wildlife Service, the California Department of Fish and Game operates the public hunt program through a cooperative agreement. The San Luis National Wildlife Refuge Complex is located in Merced County and includes the West Bear Creek, San Luis, Blue Goose, Kesterson, and Freitas Units, and the Merced National Wildlife Refuge. The Kern National Wildlife Refuge is located northwest of Bakersfield in Kern County.

General information regarding hunting at San Luis and Merced may be obtained through the Los Banos Wildlife Area Complex office at (209) 826-0463. Specific information regarding water distribution, habitat conditions, and field management is available by calling the San Luis National Wildlife Refuge Complex office at (209) 826-3508. Information about the Kern NWR can be obtained by calling (661) 725-6504 for recorded information during the hunting season. Consult each area leaflet for map and further area specific regulations.

Steel shot or other approved non-toxic shot is required for all hunting on federal areas, including pheasant and snipe hunting. No alcoholic beverages are permitted in the field on any federal public hunting area.

SAN LUIS NATIONAL WILDLIFE REFUGE

Persons wishing to hunt at the West Bear Creek, San Luis, or Blue Goose Units must check in at the Salt Slough Unit checking station on Wolfsen Road to obtain a permit. Overnight parking for reservation holders and those with lottery or first-come, first served numbers is available at the Salt Slough Unit checking station. Huntible species at these units include ducks, geese, coots, and moorhens. Within the free-roam area of the San Luis Unit, snipe and pheasant hunting are permitted during the waterfowl hunt. Shooting days are on Wednesdays, Saturdays, and Sundays during the appropriate seasons.

West Bear Creek Unit: The U.S. Fish and Wildlife Service has scheduled the West Bear Creek Unit to open for public waterfowl hunting the 3rd Saturday in November. Call (209) 826-0463 or (209) 826-3508 for additional information. Hunters must check in at the Salt Slough Unit check station and choose one of the six designated wetland units. To control the number of persons hunting each unit, hunters that wish to move to another hunting location are required to return to the checking station to have their permit changed. Maximum capacity will be 34 hunters. Pheasant hunting is not allowed on the West Bear Creek Unit.

San Luis and Blue Goose Units: There are no major changes on the San Luis or Blue Goose Units this year. Flood-up conditions will influence the opening day quota; total maximum capacity for these two units is 116 hunters.

The San Luis Unit is a free roam area. All hunting at the Blue Goose Unit is done from blinds. The area will offer 4-three person stand-up blinds, 3-three person tank blinds, and 1-two person barrel blind on an assigned blind basis.

The San Luis Unit will be open to pheasant hunting in conjunction with waterfowl hunting every Saturday, Sunday and Wednesday during the pheasant season. Pheasant Hunting is not allowed on the Blue Goose Unit.

Public telephones, food services, and drinking water are not available. Chemical toilets are available at the parking lots on the San Luis, West Bear Creek, and Blue Goose Units. Boats are not allowed at these three units. Reservation cards are numbered and will be called in numerical order starting at two and a half hours prior to shoot time. Reservations not present when called are skipped but still may be used until one hour prior to shoot time. Hunters that desire reservations for the Blue Goose Unit should mark San Luis Unit on the reservation application card.

Kesterson Unit: All waterfowl hunting at the Kesterson Unit is accomplished from designated blind sites. There are a total of 17 three-person and 15 two-person blinds. One 3-person blind will be reserved for the mobility impaired; if this blind is still unassigned by 2 pm it may be made available to able-bodied hunters. Reservation cards are numbered and will be called in numerical order starting 2.5 hours prior to shoot time. All reservations must be presented 2.5 hours before shoot time. The choice of blinds will be on a first-come, first-served basis.

Only ducks, geese, coots, moorhens and pheasants may be hunted. The Kesterson Unit is closed to snipe, dove, and rabbit hunting. Pheasant hunting will be allowed during the first two days of the pheasant season at a free-roam pheasant hunting area and in the waterfowl

blind area only on the first Monday of the pheasant season. Permits to hunt pheasants will be issued at the Kesterson checking station at 7:00 a.m. Order of entry will be determined by lottery.

No telephone, food, or drinking water is available. Chemical toilets are available at the check station and hunting parking lots. Boats are not allowed.

Freitas Unit: Access to this unit is by boat only with launching points at either Salt Slough at Highway 165 to go up or down stream, or the San Joaquin River at Highway 140 to travel up the river. Maximum boat speed is limited to 5 mph; air thrust and inboard water thrust boats are prohibited. Hunting may be accomplished from boat or land within the area that is posted open to hunting.

The Freitas Unit will be open, beginning at 2:00 a.m. everyday, throughout the waterfowl season. However, on Wednesdays, Saturdays, and Sundays of the waterfowl season, Type A permits will be required from either the Kesterson NWR or Salt Slough Unit check stations, depending on where you wish to launch your boat. Hunters desiring to launch at Highway 140 will obtain a Freitas Boat North permit from the Kesterson Unit check station; those who wish to launch from the parking lot on the east side of Highway 165 at Salt Slough will obtain a Freitas Boat South permit from the Salt Slough Unit check station on Wolfen Road. Reservations are available for both of these locations. Permits for reservation holders will be issued starting at 6:00 p.m. the evening before each shoot day, until 3:00 a.m. Hunters without reservations may register in person at the checking station between 6:00 p.m. and 9:00 p.m. the evening before each hunt day for a lottery drawing to be held shortly after 9:00 p.m., to establish the order of issuance of permits to fill vacancies after reservation holders on the morning of the hunt.

North Freitas launch area can be challenging if you are not familiar with the area. Please scout the area prior to launching. Water levels vary greatly on both the San Joaquin River and Salt Slough causing many underwater hazards to exist. People unfamiliar with these waterways should not attempt to negotiate them in the dark.

Persons arriving after the 9:00 p.m. lottery registration deadline will be added to the list on a first-come, first-served basis. A total of 15 reservations will be issued for each site with a maximum of 15 boats allowed from each of the two launch sites. Refills will be permitted after 11:00 a.m.

On Mondays, Tuesdays, Thursday, and Fridays during the waterfowl hunting season, no permits will be needed and there will not be any fees. Launching will be available from the parking lot on the east side of Highway 165 and from Highway 140.

It should be noted that this area is closed to all entry prior to the opening of waterfowl season. Only ducks, geese, coots, and moorhens may be hunted.

MERCED NATIONAL WILDLIFE REFUGE

All hunting is accomplished from blinds at the Merced NWR. Shoot days are Saturdays and Wednesdays only; shoot time stops at 12:00 noon. Only ducks, geese, coots, and moorhens may be hunted.

Permits will be issued to reservation holders starting two hours before shooting time. Reservations must be presented at the checking station by 1½ hours before shooting time. **Hunters without reservations may register in person at the Los Banos Wildlife Area checking station between 6:00 p.m. and 9:00 p.m. the evening before each hunt day for a lottery drawing** to be held shortly after 9:00 p.m., to establish the order of issuance of permits to fill vacancies after reservation holders on the morning of the hunt. Persons arriving after the 9:00 p.m. lottery registration deadline will be added to the list on a first-come, first-served basis. Each potential hunter, including juniors, must register in person to participate in the lottery. A hunting partner does not have to be present for the registration, nor be a lottery participant. The Merced NWR check station parking lot has undergone improvements with the installation of fencing to enclose the interior of the parking lot. The new fencing will allow the gate on Sandy Mush Road to be opened the evening prior to the hunt day.

One mobility-impaired accessible blind is available. If this blind is not taken by a mobility-impaired hunter and partner, it will remain vacant. The two goose blinds will open the 3rd Saturday in November.

Please note that at the Merced NWR, hunters are limited to 25 shells per day. Hunters may not return to their vehicle for additional ammunition. Boats are not allowed. No telephone, food, or drinking water is available. A chemical toilet is available at the check station and hunting parking lots.

KERN NATIONAL WILDLIFE REFUGE

Hunter capacity at the Kern NWR is dependent on the availability of water and will increase throughout the season as additional habitat is flooded. Please note that this area is not in the "Balance of the State" regulation area. Kern NWR is in the "Southern San Joaquin Valley" zone.

Hunt days are Wednesdays and Saturdays only. Waterfowl, coots and moorhens may be hunted during the waterfowl season. Steel or other approved non-toxic shot is required for all hunting. Snipe, dove and rabbit hunting are not allowed.

In addition to four free-roam areas there are spaced blinds available. Up to three ADA accessible blinds will also be available. At least one ADA blind will be available opening day to any disabled reservation holder. In the event that the ADA accessible blinds are not requested by a disabled reservation holder, they will be made available to standby disabled hunters in a drawing held two hours prior to shoot time on the morning of the hunt. All persons wishing to hunt in an ADA accessible blind must present proper documentation to the check station staff.

Reservations are available for the waterfowl season and must be presented at the checking station by 1 ½ hours before waterfowl shoot time. The checking station will open 2 ½ hours prior to shoot time. Non-reserved entry permits are issued at the check station on each hunt day 2 hours prior to shoot time. Order of issue will be determined by a drawing held 2 hours prior to shoot time on the morning of the hunt. The area will refill until 1:00 p.m.

2004-05 WATERFOWL AND PHEASANT HUNTING RESULTS FOR GRASSLANDS-VICINITY AREAS

AREA	PHEASANT HUNTERS	WATERFOWL HUNTERS	DUCKS HARVESTED	GEESE HARVESTED	COOTS HARVESTED	TOTAL WATERFOWL HARVESTED	AVERAGE WATERFOWL PER HUNTER	PHEASANTS HARVESTED

MANAGERS CORNER

As another waterfowl season quickly approaches, the staff at the wildlife areas thought this would be a good time to let folks know what has been happening this spring and summer, outline some of the challenges facing wildlife areas now and in the future, and to reflect on last year's waterfowl season.

Wildlife responded very favorably to the wet winter and spring, with almost double the average rainfall in the Los Banos vicinity leading to ample water supplies for spring and summer habitats. Both the duck and pheasant production was excellent this year due to these factors. Overall, waterfowl production for the Pacific flyway looks good enough for another liberal waterfowl season which will be set by the time this issue of Wing Beat News is published. As usual with waterfowl hunting, weather is the key but with the right weather it could be another banner waterfowl season.

The wildlife areas have been pretty busy this year. The work season was a bit delayed due to the wet conditions, but many projects were completed this year along with the usual maintenance and habitat rehabilitation. At Los Banos WLA, a riparian restoration project was completed in Fields 63 and 66 out of parking lot 11. The completion of this project will allow staff to better manage the upland habitat and create more seasonal wetland and riparian habitat in the vicinity of the area. At Volta WLA, the entire west side water delivery system, as well as the pump that supplies this system, has been rehabilitated. Flooding the west side of the area will be done in a more efficient manner in the future than in the past. Pump rehabilitation projects were also completed for the Salt Slough Unit of North Grasslands WLA. All of these projects will do great things for future wildlife habitat, but our efforts may delay this year's wetland flooding. Staff will be working hard to have as much waterfowl habitat available as possible for opening day.

Many challenges face the wetland areas of the Grasslands as a whole, now and in the future. These challenges include mosquito abatement, water supplies, wetland drainage and urban encroachment. As this article is being written we have been notified that mosquitoes carrying the West Nile Virus have been found on Los Banos Wildlife Area. Therefore, be sure to apply insect repellent any time you're in or near wetland areas. Mosquito abatement continues to be a management challenge for wildlife area staff. We are continuing to work with the local mosquito abatement districts and other wetland managers to develop and implement best management practices that minimize mosquito production in our managed wetlands. Department of Fish and Game personnel are working with other agencies and partners, such as U.S. Fish and Wildlife Service, Grassland Water District, California Waterfowl Association and Ducks Unlimited as well as local planning groups, to insure that wetlands have appropriate water supplies, drainage capabilities and to buffer wetland areas from urban development. Both water supplies and wetland drainage are being challenged at this time even beyond our mosquito conflict. All one has to do is look at the increasing number of houses being built in the Los Banos vicinity to realize that urban encroachment is currently, and will continue to be, an increasingly critical issue facing wetlands in this area.

Last year's waterfowl season in the Grasslands turned out to be one of the best seasons in terms of duck harvest in years. In fact, many areas saw the highest harvest numbers since the late 1970s thanks to early cold temperatures in the Klamath Basin, lots of foggy days in the San Joaquin Valley and, of course, large numbers of ducks using the Grasslands.

Related to the up coming waterfowl season, we would like to leave you with some thoughts about hunting ethics and expected hunter behavior. As most of you who hunt the public areas are aware, each year it seems there are unnecessary incidents involving bad judgment or unsportsmanlike conduct that lead to folks losing their hunting privileges within the public hunting program, such was the case this past waterfowl season. Hunters should note that Department of Fish and Game and U.S. Fish and Wildlife Service have a zero tolerance policy for abusive behavior and unsportsmanlike conduct and will continue to enforce it. Hunting on public areas is a privilege, not a right. The bottom line is that we as hunters need to treat each other with respect; there is no such thing as “my spot” on public hunt areas. We all have locations that we like or prefer to hunt, but if another hunter is lucky enough get there before us, we need to honor that fact and hunt another location that day. You might be surprised at how many good hunting locations might be found by trying different areas than those you are familiar with. Competition in the field often leads to unacceptable behavior and, at times, activities that violate regulations. Area staff and law enforcement will be watching for such behavior in the field including abusive language. This type of behavior will not be tolerated and is a sure way to lose hunting privileges. Leaving personal property such as decoys, dog stands and hunting stools often leads to ownership issues and is a violation of existing regulations. As with any violation these can lead to ejection and/or loss of hunting privileges. Many problems that occur both in the field and at check station facilities involve the use of alcohol. As such, we like to remind hunters that it is against regulation to possess alcohol in the field and it is considered “public intoxication” to be intoxicated on public facilities, so as they say “drink responsibly” (and somewhere else) or risk losing your hunting privileges.

Many folks in today’s society are looking for reasons to stop hunting all together. It would behoove all of us to treat all other public users with respect and to behave in a manner that deserves respect in return. This is a serious matter and should be something one thinks about as we get closer to the fall (a hunter’s favorite time of year). Have an enjoyable and safe hunting season, and when possible bring a kid hunting this year, as they are the future of the sport.

AREA RESERVOIRS OPEN FOR WATERFOWL HUNTING

Waterfowl hunting is allowed daily during the hunting season on San Luis Reservoir, O'Neill Forebay, and Los Banos Creek Detention Dam. Boats are highly recommended; hunters with scull boats have enjoyed good success. Call California Department of Parks and Recreation at (209) 826-1196 for specific areas open for hunting, maps, and special rules and regulations.

WATERFOWL BLINDS AVAILABLE FOR MOBILITY RESTRICTED HUNTERS

Many state and federal hunting areas have available Americans with Disabilities Act (ADA) accessible hunting blinds to provide waterfowl hunting opportunities for hunters with disabilities. These blinds are constructed to be wheelchair accessible and are located close to parking areas.

Many State wildlife areas have ADA accessible hunting blinds: Gray Lodge, Grizzly Island, Imperial, Mendota, Los Banos, North Grasslands, San Jacinto, Upper Butte Basin, and Yolo Bypass Wildlife Areas. National wildlife refuges with barrier free blinds include Sacramento, Delevan, Merced, Sonny Bono-Salton Sea, and San Luis National Wildlife Refuges.

The ADA accessible blinds for mobility impaired hunters are available to any waterfowl hunter who has been issued a Department of Motor Vehicles disabled placard **identification card**, disabled veteran license plate, or a mobility impaired disabled person's motor vehicle hunting license. A disabled parking placard may not be substituted for the identification card bearing the hunter's name.

Several wildlife areas in the Central San Joaquin Valley have specially designed blinds for hunters who are mobility restricted or impaired. The Mendota WLA has seven blinds for mobility impaired hunters. Originally constructed by Fresno area Boy Scouts as part of their Eagle Scout projects, these blinds allow the hunter to be seated (either in a wheelchair or bring your own stool) with cover around the blind. Paths are graveled from the parking lot to the blind sites and average about 200 yards. Vehicles may be driven to the blind to drop off mobility impaired hunters; however, vehicles must then be parked in the designated parking area. ADA reservation holders enter through the reservation line in a first come first served system. Disabled hunters with a regular reservation or no reservation wishing to hunt an ADA blind will enter through the appropriate line but will then have to wait until 1 hour before shoot time to be issued a blind site.

At Merced NWR, one mobility impaired hunting blind is available. A vehicle can be driven close to the blind to unload equipment, and then must park in the nearby designated parking area. The platform blind allows the hunter to be seated (either in a wheelchair or use the seating provided) with cover around the blind.

The Salt Slough Unit of the North Grasslands WLA has one ADA accessible blind in the main channel of field 50. A 200 yard concrete walkway leading from a designated parking area leads to the 5'x8' blind. It has a metal frame and is camouflaged with grass, cattails and tules. The blind is wheelchair accessible and seats are provided.

The Gadwall Unit of the North Grasslands WLA has one ADA accessible blind for hunters with disabilities located in Field 6. A concrete walkway leads to the wooden platform blind. The blind is surrounded by water and is camouflaged with netting. Seats are provided at this blind.

The Los Banos WLA has two ADA accessible blinds. Blind 17, located in field 60, is a platform blind approximately 300 yards northeast of parking lot 6. The path from the parking area leading to the blind is constructed of compacted gravel. The bottom of the platform blind is a metal frame with plywood floor. The blind is located over water. Blind 9H, which has a plywood base platform, has been re-furnished and fitted with camouflage netting to hide the entrance. This blind is located approximately 300 yards from parking lot 8 and the path is compacted gravel. It is just off the levee and has water on three sides.

The Kesterson Unit of the San Luis NWR has an ADA accessible blind located at Blind 26. The three-man blind can be accessed by traveling 100 yards on a gravel path leading from the parking spot to the blind. The blind is constructed of a concrete pad and a steel frame with sliding front and top allowing space for shooting. The blind is located on a cattail lined channel with small potholes on both sides of the channel. Water in the channel tends to be between thigh and navel deep in places.

SPECIAL WATERFOWL HUNT DAYS FOR YOUNG HUNTERS

Take a young person hunting and you will not only introduce a person to the wonders of the outdoors, but you will likely see it in a different light as well.

The dates for the special youth waterfowl hunt days have not been set; however, they will most likely occur in late-January or early-February. The youth must be a licensed hunter, 15 years old or younger, and be

accompanied in the field by an adult 18 years of age or older. The adult may not shoot.

At this time the exact locations of areas participating in this special hunt day have not been announced, but generally, all the areas listed and discussed here are open to youth hunters. Information in the form of press releases, posters, and flyers will be available from DFG offices and hunter check stations in time to apply for reservations once the date(s) have been set for the special youth waterfowl hunt.

HUNTING OPPORTUNITIES AVAILABLE ON THREE ECOLOGICAL RESERVES IN FRESNO AND TULARE COUNTIES

The Department of Fish and Game will open three ecological reserves (ERs) for upland game and limited waterfowl hunting this year. These ERs were obtained by the Department to protect sensitive habitat and threatened or endangered species; with the exception of Pleasant Valley ER, there are generally no habitat improvements or plantings for game species. Upland game and some waterfowl are sometimes found on the areas, and hunting for these species will not affect the primary ER conservation goals. Only shotgun hunting for upland game and waterfowl is permitted. There is no charge to use the ERs. Camping, open fires, target practice or vehicle access is prohibited.

Kaweah River Ecological Reserve is located on South Fork drive about 8.8 miles east of Three Rivers, in Tulare County. This 103-acre ER is the home to the Kaweah brodiaea, an endangered native plant. The beautiful flowers of this plant can be seen in late April or early May, but it is dormant during the fall hunting season. There are limited populations of California quail, rabbits and mourning dove. Terrain is steep on this ER.

Stone Corral Ecological Reserve is also located in Tulare County and was acquired primarily for protection of vernal pool habitat. This ER has several parcels that are accessible to the public. Mourning dove and a limited pheasant population inhabit this ER. Waterfowl can also be found during the late fall and early winter. Waterfowl hunting could be challenging due to the flat, open terrain.

In Fresno County, just east of Coalinga, is the Pleasant Valley Ecological Reserve. This ER was purchased to protect valley saltbush habitat. San Joaquin kit fox and blunt-nosed leopard lizard may also benefit from this ecological reserve. It provides good dove habitat, and dove are plentiful during some years. There are several guzzlers on the ER that receive use by small populations of California quail, but this is primarily a dove hunting

destination. About 480 acres of this ER south of Phelps Avenue have been opened to hunting.

If these ERs are located near you, they may be worth investigating for a hunting trip. Remember to leave the area as you found it and to be aware that you are using habitat that is crucial for some of California's more sensitive species. For information on these areas, call our Regional Office in Fresno at (559) 243-4005, extension 132 or 133, or call (559) 332-2021.

LESSER KNOWN SAN JOAQUIN VALLEY/SOUTHERN SIERRA REGION WILDLIFE AREAS OPEN FOR PUBLIC USE

There are several Type C wildlife areas in Merced and Fresno counties that are available for public use. The Type C designation indicates that there is no charge to enter the area. All members of the public who enter are required to sign in at the self-registration booth (if available).

San Luis Reservoir WLA (900 acres), Lower Cottonwood Creek WLA (2,000 acres) and Upper Cottonwood Creek WLA (4,000 acres) offer opportunities for hunters who like to pursue a wide range of species. Both of these coastal mountain range wildlife areas are open to foot traffic only. Huntible species include pig, deer, turkey, dove, quail, and rabbit during the legal seasons. Both areas are open to wildlife viewing year round. The spring is a great time to view wildflowers.

Little Panoche Reservoir WLA (780 acres) is open for fishing and hunting the game species that are in season. A small number of waterfowl are taken from the reservoir each year. DFG has banded a number of chukar in the Panoche Hills, as part of a pilot project. Hunters harvesting any banded birds are strongly encouraged to call the phone number on the leg band, and report when and where the birds were harvested. Your help is important to us and this project. The area is open for wildlife viewing year round.

In addition to being an excellent place for birdwatching, the O'Neill Forebay WLA (700 acres) is open to dove, waterfowl, quail, rabbit, and pheasant hunting during the legal seasons. The area will be closed to general public use on November 20 and 27, 2004 for the annual junior pheasant hunt program. A hunter quota will be applied to the opening of the pheasant hunting season and on the Sundays following the junior pheasant hunts. A lottery may be applied to grant entry to hunters on those days.

West Hilmar WLA (340 acres) is located on the east side of the San Joaquin River, approximately four miles downstream from Hills Ferry Road. It is accessible by boat only. The area is primarily oak grassland, and has

many large oak trees. The area is open to hunting quail, doves, pheasants, rabbits, and waterfowl during the appropriate seasons. Contact the Los Banos Wildlife Area Complex office for detailed information about how to access the West Hilmar WLA.

For additional information, contact the Los Banos Wildlife Area Complex office at (209) 826-0463.

ONLINE ACCESS FOR HUNTING NEEDS REGULATIONS, MAPS, APPLICATIONS, ETC.

Department of Fish and Game has made available many items for hunters online. Below is a brief list of how to locate some of the commonly asked items. All directions will be from the main DFG webpage of <http://www.dfg.ca.gov>.

Note: Many documents within the DFG website are in Portable Document File (.pdf) format. Therefore, you must have Adobe Reader installed and updated on your computer to read the file. Adobe Reader is available free online at <http://www.adobe.com/products/adobe/readermain.html>. Please update your Adobe Reader version before trying to open a file within the DFG website. Many times this is the problem for files being unable to be opened on your computer.

General Information on Hunting in the San Joaquin Valley

Select *Fishing & Hunting* from the left-hand side of the menu on the main page and below that *Hunting*. The page will completely refresh, and then scroll down to select *Hunting in the San Joaquin Valley* link from the center menu. It should be the third up from the bottom of the page. This site has many links to some of the information below and other useful information regarding hunting within this area.

Regulations

Select *Regulations* from the left-hand side of the menu on the main page. Once the page has refreshed, the center portion should have links to general, hunting and fishing regulations. Each area has been broken down further to assist in locating the proper regulations for the activity you are interested in.

Maps

Select *Fishing & Hunting* from the left-hand side of the menu on the main page and below that *Hunting*. The page will completely refresh, and then there are a few options depending on the map you are looking for.

Select *Wildlife Area Maps* link from the right-hand side menu below the search button for My CA and DFG to redirect you to the webpage of state lands. Navigation to the appropriate wildlife area is best using the map of California and narrowing your area down until it lists the different wildlife areas. For example, most wildlife areas described in this issue is located in the yellow area (San Joaquin Valley – Southern Sierra) of the California map on the right-hand side of the Wildlife Area webpage. Once you select the yellow area (or the appropriate text) on the map of California, you will be redirected to a new concentrated map of the different wildlife area within the San Joaquin Valley – Southern Sierra region. If you would like further information regarding a wildlife area in that region of California select that wildlife area and more details will follow in another page.

Information may also be found by selecting *Wildlife Areas & Ecological Reserves* from the left-hand side menu from the *Wildlife Area Maps* page. In addition, each issue of the Wing Beats has maps of the different state wildlife areas and national wildlife refuges. Directions for navigating to the Wing Beat news are below.

Region 4 Wing Beats

Select *Fishing & Hunting* from the left-hand side of the menu on the main page and below that *Hunting*. The page will completely refresh, and then select *Wingbeat News Region 4* link from the right-hand side menu below the search button for My CA and DFG. Once selected and refreshed, select the issue you need. These issues are in .pdf format and are an exact replica of the mailing issue.

Game Bird Heritage Program

Select *Fishing & Hunting* from the left-hand side of the menu on the main page and below that *Hunting*. The page will completely refresh, and then you may need to scroll down a bit to find the *Game Bird Heritage Special Hunt Program* link from the center menu. Once selected and refreshed, navigate through the section for the appropriate press release, information and application.

IMPORTANT THINGS TO REMEMBER

All blinds at the Los Banos WLA and Mud Slough Unit have a maximum capacity of two persons.

ADA accessible blinds at San Joaquin Valley Type A areas will be held open for disabled hunters until 2:00 p.m.

A lottery system for non-reservation hunters applies to all Type A hunting areas in the Grasslands vicinity.

All members of a hunting party entering on the same reservation or lottery number must hunt the same hunt assignment (eg. same blind, same parking lot, same boat)

When registering for the first-come, first-served line, all hunters must designate whether they will be hunting as a party or solo.

No person shall possess or use alcohol while in the field hunting or engaged in other authorized recreational activities on any State wildlife area or Federal wildlife refuge. "In the field" is defined as all areas except checking stations and designated parking areas. It is a violation of the Fish and Game Code to be intoxicated while hunting.

Los Banos WLA check station will hold lottery registration and drawing for Los Banos WLA, Volta WLA, and Merced NWR. Hunters may register for the lottery for only one of the three hunt areas being drawn at the Los Banos WLA check station.

Post-lottery arrivals at the Volta WLA will not sign up for a first-come, first-served list; instead, persons arriving after the 9:00 p.m. lottery will be issued permits in the order they are parked in the Volta WLA checking station parking lot.

Permits and lottery numbers for China Island will be obtained at the Kesterson Unit check station.

There will be no changing of hunt assignments or new entry permits allowed after 3:00 p.m. on all hunt areas.

November 12 – Pheasant Hunting Season Opens

November 19 and 26 – Junior Pheasant Hunts at the O'Neill Forebay Wildlife Area

The following information was copied from the Department of Fish and Game's Game Bird Heritage Program press releases.

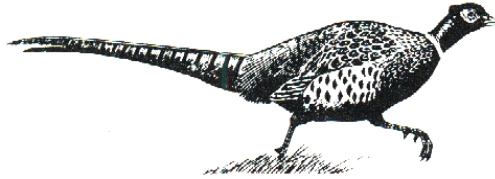

FISH AND GAME NEWS RELEASE

(559) 243-4005

Extension 133

THE RESOURCES AGENCY
DEPARTMENT OF FISH AND GAME
1234 EAST SHAW AVENUE
FRESNO, CALIFORNIA 93710

*W. E. Loudermilk,
Regional Manager*

FOR IMMEDIATE RELEASE
August 1, 2005

SPECIAL HUNTS FOR PERSONS DEPENDENT UPON WHEELCHAIR, SUCCESS LAKE, FAMILY, WOMEN, AND JUNIOR PHEASANT HUNT AND JUNIOR QUAIL HUNT

*This and additional information can be found by visiting the Department's web page at
<http://www.dfg.ca.gov>.*

Pheasant Hunt for Persons Dependent upon a Wheelchair

A special pheasant hunt for persons dependent upon a wheelchair is being offered by the Department of Fish and Game through its Game Bird Heritage Program. Providing hunter opportunity and hunter access is a major goal of the Game Bird Heritage Program. This hunt is made possible through the purchase of an Upland Game Bird Stamp by hunters and is supported by the Madera County fish and game propagation committee and Board of Supervisors through the disbursement of fine monies collected from fish and game violators to purchase pheasants.

The hunt will be held on November 20, 2005, from 11:00 a.m. until sunset near the town of Chowchilla on private property. Male ring-necked pheasants will be released prior to the hunt. This hunt can accommodate 25 hunters who are dependent upon a wheelchair. The hunt will take place in a flat alfalfa field and trained pointing dogs will be used to locate the birds for the hunter. Volunteers will also be on hand to push the wheelchair hunters through the field if desired.

Successful applicants and their guest (except junior license holders) must pay a \$14.00 entry fee. **Do not** send the \$14.00 fee with your application; it

will be collected when you check in at the hunt. An Upland Game Bird Stamp is required of all hunters, except junior license holders. Hunters under 18 years of age must be accompanied by an adult (18 years of age or older).

How To Apply

Applicants will be selected by a random computerized drawing and allowed to bring one hunting guest who is also dependent upon a wheelchair. When applying for the hunt, provide the following information for yourself and your guest: ① name, ② address, ③ daytime and evening telephone numbers, and ④ 2005-2006 hunting license number. Hunters may apply only **once**, either as an applicant or as a guest. Submitting multiple applications will disqualify you from the drawing. Applications must be mailed or returned to:

Game Bird Heritage Program
Pheasant Hunt for Persons Dependent upon a
Wheelchair
1234 East Shaw Avenue
Fresno, California 93710

Applications must be received by October 28, 2005, at 5:00 p.m. to be eligible for the drawing. **Only successful applicants will be notified** with

instructions and a map to the hunt area. It is your responsibility to notify your guest hunter of being successful in the drawing. For additional information or an application, contact the Department of Fish and Game, Game Bird Heritage Program at (559) 243-4005, extension 133.

Fall 2005 Success Lake Pheasant Hunt

The Department of Fish and Game through its Game Bird Heritage Program and the Southern Tulare County Sportsman Association are offering free public pheasant hunting near Springville. In cooperation with the U.S. Army Corps of Engineers, 1,000 male ring-necked pheasants will be released randomly from November 12, 2005, (opening day of pheasant season) through December 23, 2005, on the wildlife area of Success Lake. **Please note, the area will be closed to hunting** during the junior pheasant hunt (November 19-20, 2005). Providing hunter opportunity and access is a major goal of the Game Bird Heritage Program. These birds were purchased by the Game Bird Heritage Program through the purchase of an Upland Game Bird Stamp by hunters and raised from 8-week-old chicks by the Southern Tulare County Sportsman Association. There is no fee or permit required for sportsmen and sportswomen to hunt this area. All laws and regulations regarding the taking of pheasants are in effect. An Upland Game Bird Stamp is required for all hunters except junior license holders. **Please note that this area will be closed to all hunting until 8:00 a.m. during pheasant season.**

For additional information, contact the Department of Fish and Game, Game Bird Heritage Program, at (559) 243-4005, extension 133. The Game Bird Heritage Program and the Tulare County Sportsman Association are pleased to offer this special hunt to the public. Please be safe and courteous. Enjoy your hunt.

Family Pheasant Hunts

Twenty San Joaquin Valley family pheasant hunting opportunities are being offered by the Department of Fish and Game through its Game Bird Heritage

Program. These hunts are made possible through the purchase of an Upland Game Bird Stamp by hunters. Providing hunter opportunity and hunter access is a major goal of the Game Bird Heritage Program. Up to four family members may apply as a party. When applying for the hunts, you must indicate the family member(s) in your party. See instructions under "How To Apply."

The hunts will be held near the towns of Modesto, Gustine, Merced, Chowchilla, San Joaquin, Kettleman City, Stevinson, Alpaugh and Bakersfield. All of the hunts are in cooperation with private landowners with the exception of the Merced hunt, which will be held on the City of Merced property, and the Gustine hunt, which will be held on the Department's China Island Wildlife Area. The Stanislaus, Madera, Fresno, Tulare and Kern County fish and game propagation committees and Board of Supervisors are also supporting the hunts by purchasing pheasants through the disbursement of fine monies collected from fish and game violators. Most of the hunts are also supported by local sportsmen's organizations. These clubs include Merced Fish and Game Club, Inc. (Gustine and Stevinson), National Wild Turkey Federation (Merced and San Joaquin), Avenal Gun Club (Kettleman City) and Exeter Sportsmen's Association (Alpaugh). Two hunts are scheduled per day, from 8:00 a.m. to noon and from 1:00 p.m. to sunset. Male ring-necked pheasants will be released prior to each hunt.

Successful applicants and their guest(s) (except junior license holders) must pay a \$14.00 entry fee (waived at the Gustine hunt in lieu of a two-day or annual hunting area pass). **Do not** send the \$14.00 fee with your application, it will be collected when you check in at the hunt. An Upland Game Bird Stamp is required of all hunters, **except** junior license holders. Hunters under 18 years of age must be accompanied by an adult (18 years of age or older).

How To Apply

Hunters will be selected by a random computerized drawing. Applications may include up to four family members applying as a party. When applying for the hunts, provide the following information for **yourself and any other family hunter(s)**: ① name, ② address, ③ daytime and evening telephone numbers, ④ 2005-2006 hunting license number and ⑤ hunt number, location (e.g. [H] Merced), date and hunt in order of preference. Hunters may apply only **once** for each hunt, either as an applicant or as a guest. Submitting multiple applications will disqualify you from the drawing.

Hunters will be selected for **only one** hunt. This is to provide more hunters with the opportunity to participate in these special hunts. **Please make your selections carefully.** Changes **cannot** be made after the drawing. Applications must be mailed or returned to:

Game Bird Heritage Family Pheasant Hunts
1234 East Shaw Avenue
Fresno, California 93710

Applications must be received by Friday, October 28, 2005, at 5:00 p.m. to be eligible for the drawing. **Only successful applicants will be notified** with instructions and a map to the hunt area. It is your responsibility to notify other family member(s) of being successful in the drawing. For additional information on any of the hunts or for an application, contact the Department of Fish and Game, Game Bird Heritage Program at (559) 243-4005, extension 133. The hunt numbers, locations, dates and hunt periods are as follows. List in order of preference on your application.

Women's Pheasant Hunts

Six special women's pheasant hunts are being offered by the Department of Fish and Game through its Game Bird Heritage Program. These hunts are made possible through the purchase of an Upland Game Bird Stamp by hunters. Providing hunting opportunity and hunter access is a major goal of the Game Bird Heritage Program. When applying for the hunts, you must indicate who you would like to bring as a guest hunter. See instructions under "How To Apply."

The hunts will be held near the towns of Modesto (Mapes Ranch), Gustine and Bakersfield. These hunts will be held on private property and in cooperation with local organizations. These organizations include the Safari Club International-California Central Valley Chapter (Modesto), Los Banos Soroptimist Club and Los Banos Chapter of Quail Unlimited (Gustine). Two hunts are scheduled per day, from 8:00 a.m. to noon and from 1:00 p.m. to sunset. Male ring-necked pheasants will be released prior to each hunt.

Successful applicants and their guest (except junior license holders) must pay a \$14.00 entry fee. **Do not** send the \$14.00 fee with your application; it will be collected when you check in at the hunt. An Upland Game Bird Stamp is required of all hunters **except** junior license holders. Hunters under 18 years of age must be accompanied by an adult (18 years of age or older).

How To Apply

Hunters will be selected by a random computerized drawing and allowed to bring one female hunting guest. When applying for the hunts, provide the following information for **yourself and your guest**: ① name, ② address, ③ daytime and evening telephone numbers, ④ 2005-2006 hunting license number, and ⑤ hunt number, location (e.g. [E] Modesto), date and hunt in order of preference. Hunters may apply only **once** for each hunt, either as an applicant or as a guest. Submitting multiple applications will disqualify you from the drawing. Hunters will be selected for **only one** hunt. This is to provide more hunters with the opportunity to

participate in these special hunts. Please make your selections carefully. Changes cannot be made after the drawing. Applications must be mailed or returned to:

Game Bird Heritage Women's Pheasant Hunts
1234 East Shaw Avenue
Fresno, California 93710

Applications must be received by Friday, October 28, 2005, at 5:00 p.m. to be eligible for the drawing. **Only successful applicants will be notified** with instructions and a map to the hunt area. It is your responsibility to notify your guest hunter of being successful in the drawing. For additional information on any of these hunts or an application, contact the Department of Fish and Game, Game Bird Heritage Program at (559) 243-4005, extension 133.

The hunt numbers, locations, dates and hunt periods are as follows. List in order of preference on your application.

Hunt Number	Location	Date and Hunt Period	Capacity
A	Bakersfield	Saturday, December 3, morning	25
B	Bakersfield	Saturday, December 3, afternoon	25
C	Gustine	Saturday, December 3, morning	25
D	Gustine	Saturday, December 3, afternoon	25
E	Modesto Mapes Ranch	Saturday, November 19, morning	30
F	Modesto Mapes Ranch	Saturday, November 19, afternoon	30

Junior Pheasant Hunts

Twenty-four special junior pheasant hunts are being offered to young hunters by the Department of Fish and Game and sportsmen's organizations. Pheasants for these special hunts were purchased by the Game Bird Heritage Program through the purchase of an Upland Game Bird Stamp by hunters, by sportsmen's clubs and with county fish and game propagation monies derived from fish and game violations. Providing hunting opportunity and hunter access is a major goal of the Game Bird Heritage Program. All of the hunts are free. Hunters must be signed up or successfully drawn to participate in these hunts. Walk-up hunters will not be admitted.

The hunts will be held near the towns of Modesto (Mapes Ranch), Los Banos, Mendota, Springville, Lake Isabella and Taft. Eight hunts are in cooperation with private landowners, Success Lake hunts are on U.S. Army Corps of Engineers land, Lake Isabella on United States Forest Service land and the O'Neill Forebay and Mendota hunts are located on Department of Fish and Game wildlife areas. All hunts are supported by local sportsmen's organizations. These sportsmen's clubs include Safari Club International, California Central Valley Chapter (Mapes Ranch, Modesto), Los Banos Sportsmen's Association and Quail Unlimited-Stockton Chapter (O'Neill Forebay Wildlife Area), Fresno County Sportsmen's Club (Mendota Wildlife Area), Southern Tulare County Sportsman Association (Success Lake), Fish and Game Habitat Club (Lake Isabella), and the Taft Sportsmen's Club (Taft). Two hunts are scheduled per day, from 8:00 a.m. to noon and from 1:00 p.m. to sunset. Male ring-necked pheasants will be released prior to each hunt period.

Junior hunters (Junior license holders) must be accompanied by an adult (18 years of age or older). The adult accompanying the junior hunter cannot hunt or carry a shotgun. An Upland Game Bird Stamp is **not** required of junior license holders.

How To Apply

Up to four junior hunters may apply as a party. When applying for the hunts, provide the following information for yourself and any other junior hunter(s) in your party: ① name, ② address, ③ daytime and evening telephone numbers, ④ 2005-2006 hunting license number, and ⑤ location (e.g., Taft), date and hunt period in order of preference. Hunters may apply only **once** for each hunt, either as an applicant or as a guest. Submitting multiple applications will disqualify you from the drawing. An application is available to apply for the Modesto (Mapes Ranch), Mendota and O'Neill hunts only. For all other hunts, simply provide the information requested above and mail it to the **name and address of the hunt** you are applying for. Information about each hunt is listed on the next page. **Please note that your applications must be mailed to the proper address. Only successful applicants will be notified** with instructions and a map to the hunt area. It is your responsibility to notify your guest hunter(s) of being successful in the drawing.

Please see the table of available junior pheasant hunts, dates, locations and deadlines to apply on the following page.

2005 Junior Quail Hunts

Two special junior quail hunts are being offered to junior hunters by the Department of Fish and Game through its Game Bird Heritage Program, one on a private ranch and the other on property owned and managed by the Sierra Foothill Conservancy. All hunts are free. Providing hunting opportunity and hunter access is a major goal of the Game Bird Heritage Program. These wild bird hunts are not recommended for the novice or inexperienced hunter. Hunting will be permitted from one-half hour before sunrise to 1 p.m.

One hunt will be held near O'Neals on the north side of Millerton Lake in eastern Madera County, and the other hunt will be held near Springville (River Ridge Ranch) in eastern Tulare County. Both hunts will be on October 15, 2005.

Six junior hunters will be selected for each hunt.

Junior hunters (junior license holders) must be accompanied by an adult (18 years of age or older). The adult accompanying the junior hunter cannot hunt or carry a shotgun. An Upland Game Bird Stamp is **not** required for junior license holders.

How To Apply

To be eligible for the drawing, hunters must submit in writing their choice of hunts listed in order of

preference. Hunters will be selected by a random computerized drawing for one hunt only. Applications may include up to two hunters applying as a party. When applying for the hunts, provide the following information for **you and your guest**: ① hunt area (i.e., O'Neals [A]), ② name, ③ address, ④ daytime and evening telephone number and ⑤ 2005-2006 hunting license number.

Hunters may apply only **once**, either as an applicant **or** as a guest for each area. Submitting multiple applications will disqualify you from the drawing. **Please make your selection(s) carefully.** Changes **cannot** be made after the drawing. Applications must be returned to:

Game Bird Heritage Junior Quail Hunt
1234 East Shaw Avenue
Fresno, California 93710

Applications must be received by Friday, September 23, 2005, at 5:00 p.m. to be eligible for the drawing. **Only successful applicants will be notified** with instructions and a map to the hunt area. For additional information about the hunt or an application, contact the Department of Fish and Game, Game Bird Heritage Program at (559) 243-4005, extension 133.

Hunters may only apply once, either as an applicant or as a family member, for each hunt. Select your hunts in order of preference, beginning with your first choice, by entering the corresponding hunt letter in box "1" as your first choice. An application may include up to twenty hunts. However, you and your family member(s) will only be selected for one hunt.
